

# WHERE WE RANK

There have been 46 sports seasons in the last 12 years — 12 in football and 11 each in basketball, hockey and baseball. The following list is of cities with four pro teams, and the number of those teams that have made the playoffs in the last decade. Philly has done well making the playoffs, but among the cities that have won a title our 25-year wait only is exceeded by Seattle's (29 years) and Cleveland's (44).
